JAYANTI GROUP

Founded in 1991 by late Sri. J Udayan and Smt. Mahishree Udayan, Jayanti Group has two entities:

- Jayanti Botanical Gardens
- Jayanti Garden Services

HISTORICAL LINEAGE

Sri J. Udayan came from a long line of horticulturists and a family of nursery men. He was the fifth generation to pursue the business. After almost 20 years of co-owning a nursery with his brother, Sri Udayan branched out to develop his own business with a vision of a growing Bangalore in mind.

Sri Udayan envisioned a need for readymade gardens and began producing and growing specimen plants that would add immediate effect to any new landscape. Over the years Smt. Mahishree Udayan has developed on this concept and established one of the leading nurseries in the country.

JAYANTI BOTANICAL GARDENS

Spread over 30 acres on Kanakapura Main Road on the outskirts of Bengaluru, the production facility of Jayanti Botanical Gardens (JBG) features specimen plants of all varieties and all types of flowering trees, palms, ground covers and hedge plants among others.

Jayanti Botanical Gardens delivers the best quality plants for some of the largest landscapes in the country. Today, clients involve JBG right from the project planning and development stage by giving them their plant requirements a year or two prior to undertaking the landscaping work so that the plants are nurtured and grown as per the clients specifications and delivered on schedule.

SERVICES

Production of all varieties of plants and trees of different sizes and specifications at the farm.

Sourcing of plants/trees and other exotic varieties that are not readily available at the farm, in order to cater to the needs of clients.

Sale and supply of plants/trees anywhere within India.

JAYANTI GARDEN SERVICES

With the growth of the nursery business, it was only natural for Jayanti Botanical Gardens to expand into landscaping. The company's in-house landscaping division, Jayanti Garden Services (JGS), undertakes landscaping work on a turnkey basis and has completed several residential and large industrial projects.

One of JGS oldest clients is the Himalaya Drug Company with whom they have been associated for over 25 years, designing and maintaining their factory located on Tumkur Road. They have also been designing and maintaining the prestigious Toyota Kirloskar factory located in Bidadi since 2003. JGS are also the sole producers and suppliers for the Toyota Green Drive, for which they have supplied over a hundred thousand tree saplings till date and their support and association continues.

Jayanti Gardens Services' goal is to be one of the top nurseries and landscaping houses in India. They are committed to excellence and efficiency in all aspects of work and strive to make a greener India along with their prestigious and highly dedicated clients and business associates.

EMBASSY BUILDERS - PRISTINE

Jayanti Botanical Gardens has executed the softscape package for the Model Apartment and Marketing Office for this large apartment complex by Embassy Builders located off the Outer Ring Road, 3 km from Koramangala in Bangalore. The project spans 15 acres with 424 apartments across 9 towers.

Garden for Model Apartment

EMBASSY BUILDERS - GROVE

This Embassy property is a villa project spread over 8 acres comprising 106 villaments in the heart of the city, off Old Airport Road, overlooking the KGA Golf course, behind Manipal Hospital. Jayanti Botanical Gardens has completed the Marketing Office and the Model Villas so far, and will be landscaping the villaments once the construction is completed.

EMBASSY BUILDERS - BOULEVARD

Located on Devanhalli Main Road 12 km before the International Airport, Embassy Boulevard is one of Jayanti Botanical Gardens' largest on-going projects, spread over 52 acres with 170 high-end luxury villas. The company has been awarded the entire softscape package for this project. Having completed the Marketing Office, all the Streetscapes and Model Villas, JBG will continue with the remaining landscape work on the completion of all the villas.

They have created a nursery on-site where all the trees that were present on site before formation of the layout have been transplanted, so as to re-transplant them once the layout is complete.

BHARAT HOTELS - THE LALIT ASHOK, BANGALORE

This is one of the prestigious five-star hotels in Bangalore for which Jayanti Botanical Gardens has supplied and executed the entire landscape on a fast-track basis in just 20 days! JBG has been associated with Bharat Hotels since 2001 and has supplied plants for the entire softscape package for their hotels in Canacona, Goa; Beke! Fort, Kerala and their hotels in Mumbai and Khajuraho.

SAVING TREES BY TRANSPLANTATION

Jayanti Botanical Gardens' specialty includes transplantation of fully-grown trees. In the Embassy Boulevard project, JBG has created a special nursery on-site for saving trees that existed in the layout. Saving 240 trees in this project alone, they have transplanted trees that are over 60 feet in height and 3 feet in girth. This is significant as they are not only saving a large number of trees from being felled, but also saving the cost of buying the same number of trees of that size later for the same project, which are really hard to find!

PRODUCTION OF PLANTS

Jayanti Botanical Gardens is also involved in the production of plants required for projects on a turnkey basis. If a project is due for commencement and the landscaping plans are finalized, then the production of those plants can be started so that they meet the client's size specifications at the time of delivery and planting.
